PROFILE

Self-taught Full-Stack Developer, actively doing hard coding for the past 2 years, with expertise in both frontend and backend development, fast learner with strong technical curiosity, and eager to learn new technologies.

WORK EXPERIENCE

Full Stack Developer (Intern)

Dom Clem Technology ↗

July 2025 – January 2026

United Kingdom — Remote

- Engineered website components, resolved full-stack bugs, integrated the Twitter API, and implemented a push notification system using Next.js and PostgreSQL.
- Integrated Gemini AI and multiple AI-powered features into the app, automating GitHub PR reviews and delivering consistent, actionable code suggestions through custom prompt engineering.
- Optimized website architecture, removed redundant processes, and handled a large production codebase while focusing on clean, maintainable code, improving performance by 5%.

PROJECTS

Spotify Inspired Desktop App

February 2025

- Developed a Spotify-like desktop music player using Electron.js, React.js, and Tailwind CSS, featuring a desktop interface closely matching the Spotify desktop app.
- Integrated Spotify Web API to fetch user data, playlists, albums, and track playback in real time.
- Implemented OAuth-based user authentication using Electron API for secure access to personal music libraries.
- **Tech:** Typescript, React JS, Electron JS, TailwindCss

PrimeNest Estate-WebSite

April 2025

- Developed interactive and responsive frontend interfaces using Next.js and Tailwind CSS
- Built backend APIs and server-side logic with Node.js and Express.js for property management and user operations
- Implemented property upload and search with price, rent, and sale filters.
- Created a real-time chat system using Socket.io for seamless user-client communication.
- **Tech:** Typescript, Node JS, Express JS, Socket io, Next JS, TailwindCss, Claudinary, MongoDB

TECHNICAL SKILLS

Frontend: Javascript, Typescript, React.js, Next.js, Redux/Zustand, Context API

Backend: Node.js, Express.js, NestJS, WebSockets, JWT / OAuth

Database: MySQL, PostgreSQL, MongoDB, Firebase, Sequelize ORM

Styling & Design: Tailwind CSS, Bootstrap, Material UI, Shadcn UI, Framer Motion,

CERTIFICATIONS

↗ Relational Database (freeCodeCamp, 2025) | ↗ Frontend Developer (HackerRank, 2025) |

↗ Backend Development and APIs (freeCodeCamp, 2025)
